

# Squash System Feature Supersets (September 2015)

In support of the vision:

## ***Introduction***

This document is a compilation of the main features offered by the current online systems offering '***the management of structured squash matches***'. This encompasses the running of county leagues, internal club boxes/leagues and tournaments. For those following the ESR IT strategy, this is the functionality covered by the 'Events module'.

Counties and clubs are generally not aware of the systems that are available. Many counties use a system for running their leagues but most clubs are still using bits of paper stuck on walls for their boxes and many tournaments are run using hand-crafted spreadsheets. There's little connection with the ESR membership database – so we would know who everyone is and can validate their membership – but there is improving connection with SquashLevels which is the national ranking system and ESR partner, for county leagues at least.

The purpose of this document is to make counties, clubs and other organisations that manage these squash matches aware of the systems that are available and provide them with summaries, example links and details around specific functionality offered. This allows these organisations to make informed choices without having to do all the leg-work.

## ***Participation***

All the league system providers known to the counties were asked to participate in the creation of this document. Most have taken part and offered information about their products and services specific to the management of structured squash matches. Pretty much all of the information received has been included in this document so if your favourite provider isn't listed or is missing from some sections that is because that information wasn't available by the time the document was published. As this whole process took two months, it's fair to say that every provider had a good opportunity to participate fully.

## ***Updates***

This document took a lot of time and effort from all of the participants but it will get out of date over time. The intention is to do an annual update each summer if possible.

## ***Access***

This document is being sent out through the CAN (County Associations Network) and will be available on the SquashLevels website under the 'Community' pull-down.

## ***How to use this document***

With all the information received, this has turned into a large document so it's a bit daunting at first. There's good information here though so please follow the advice below and refer to it as needed for future reference.

1. Have a look through the system summaries section to get a feel of the systems available and what their main themes are.
2. Click on each link and take a good look around the example websites.
3. Skim through the detailed features sections to get an idea of the sort of specific features on offer. At least you'll get a feel for what's on offer and possibly some appreciation of the depth and breadth of functionality that the providers have implemented.
4. Remember that this document exists (!) and is available on SquashLevels. You can refer back to it if you're considering adopting such a system in the future.
5. Remember that this document covers county league, internal club box league and tournament systems. We tend to focus on the county leagues but there's good information on support for boxes and tournaments here too.

## ***Other systems***

If you are aware of other system providers that are not listed then please get in touch and we'll see if they can be included next time. Participation is voluntary but there's no harm in asking!

## ***Acknowledgements***

A big 'thank you' to the system providers who contributed to the creation of this document. It has taken a lot of time and effort from everyone to provide this level of detail all in one place. Please make good use of it.

## System summaries

System	Summary	Example website
<b>Badsquash</b>	Provides full and automated functionality for county leagues and club boxes, in particular with automation around fixture generation. Very easy to navigate around the site from the fixtures, to player histories, to team summaries. ESR membership verification and integration with SquashLevels included. Supporting Avon and Somerset.	<a href="http://badsquash.co.uk/tables.php?league=92">http://badsquash.co.uk/tables.php?league=92</a>
<b>LeagueManagerSQ</b>	A UK-based squash league management system that empowers team captains to enter results. Integrated with Twitter and Facebook, LeagueManagerSQ tweets results instantly, engaging team players and spreading interest. New for 2015/16, LeagueManagerSQ also features an in-built editor for custom pages. Supporting Nottinghamshire, Grimsby and District, Lincolnshire and Grampian.	<a href="http://lincoln.leaguemanagersq.com/">http://lincoln.leaguemanagersq.com/</a>
<b>Leaguemaster</b>	Provides for the creation of leagues, divisions and fixtures either using online fixture generator or as a service. Supports nomination lists for clubs and/or teams to automate player selection in fixtures. Performs ESR membership verification for players against ESR database and is fully integrated with SquashLevels. Supporting Surrey, Kent, Middlesex, Yorkshire, Warwickshire and Norfolk.	<a href="http://demo.countyleagues.co.uk/">http://demo.countyleagues.co.uk/</a>
<b>LMS</b>	Used by both Sussex and Hampshire, the system has a database comprising of approximately 100 clubs, 450 teams and 3,500 regular players. It deals with both Squash and Racketball, using either 'English' or PAR scoring, integrates with ESR, includes fixtures generation and has 4 access levels. Supporting Hampshire and Sussex.	<a href="http://www.lms2015sussexmens.leagueorganiser.co.uk/">www.lms2015sussexmens.leagueorganiser.co.uk/</a>
<b>Results&amp;News</b>	A simple, clear, easy to use and FREE service for hosting your league. With tailored features to suit your league, news, sponsorship deals, online store with commission earned on every sale, free daytime and evening email and telephone support and your own microsite. With everything you need for your league, Results and News is your one stop shop. Supporting Buckinghamshire.	<a href="http://www.your-leagues-domain.co.uk/">http://www.your-leagues-domain.co.uk/</a>
<b>SportyHQ</b>	Offers the most comprehensive web-based system to help counties manage their squash activities. We help with all aspects of running leagues, tournaments, bookings and clubs. Our modern interface will help you increase player activity and lighten your workload. Most of our services are free to use, and only incur a small fee when you use our payment platform. Also available;	<a href="https://www.sportyhq.com/league/view/Vancouver-Squash-League">https://www.sportyhq.com/league/view/Vancouver-Squash-League</a>

	club membership management, booking facilities, governing body membership management, remote court light control and pay for play bookings. Supporting Middlesex in the UK and 50 leagues, 100 club boxes and 700 tournaments in 9 other countries.	
SquashNet	SquashNet is part of ClubNet, which provides a wide range of services to UK sports clubs and associations. <b>For Counties:</b> SquashNet Leagues enable the League Secretary, Club Administrator and Team Captain to administer leagues efficiently, displaying fixtures, results and league tables promptly; mobile-friendly Website system provides a modern interface and great flexibility. <b>For Clubs:</b> mobile-friendly Websites; powerful Bookings system; comprehensive Competitions module (including Box Leagues, Ladder, and Tournaments); and Club Management systems (including Membership Database, Door Entry, Point of Sale, Membership Fees and Email Newsletters). Contact <a href="mailto:info@squashnet.co.uk">info@squashnet.co.uk</a> .	<a href="http://www.berkshiresquash.org/leagues/winter/">http://www.berkshiresquash.org/leagues/winter/</a> or <a href="http://www.squashnet.co.uk">http://www.squashnet.co.uk</a> for the main site.
SquashResults	Offers a fully automated online service to gather and view results of squash matches. Primarily a solution for league systems, the website is modular and designed so that it can easily expand to offer results for other formats. Fully integrated Squash Levels. Developed for and with Leicestershire with 7 divisions in men's and women's squash in the county. Bespoke county websites also available. Supporting Leicestershire.	<a href="http://squashresults.com/LeicestershireSquash/2011-12/Ladies-League/Div-1/matrix">http://squashresults.com/LeicestershireSquash/2011-12/Ladies-League/Div-1/matrix</a>

## Generic system features

Features common to all systems from the same provider.
